

Smart City Toolkit

Helping cities achieve their Smart City goals

Hundreds of cities across the world are initiating Smart City strategies and projects. The Smart City Toolkit offers a practical approach to prioritizing initiatives that makes cities more livable and sustainable while realizing their potential as engines of growth.

Smart City Toolkit

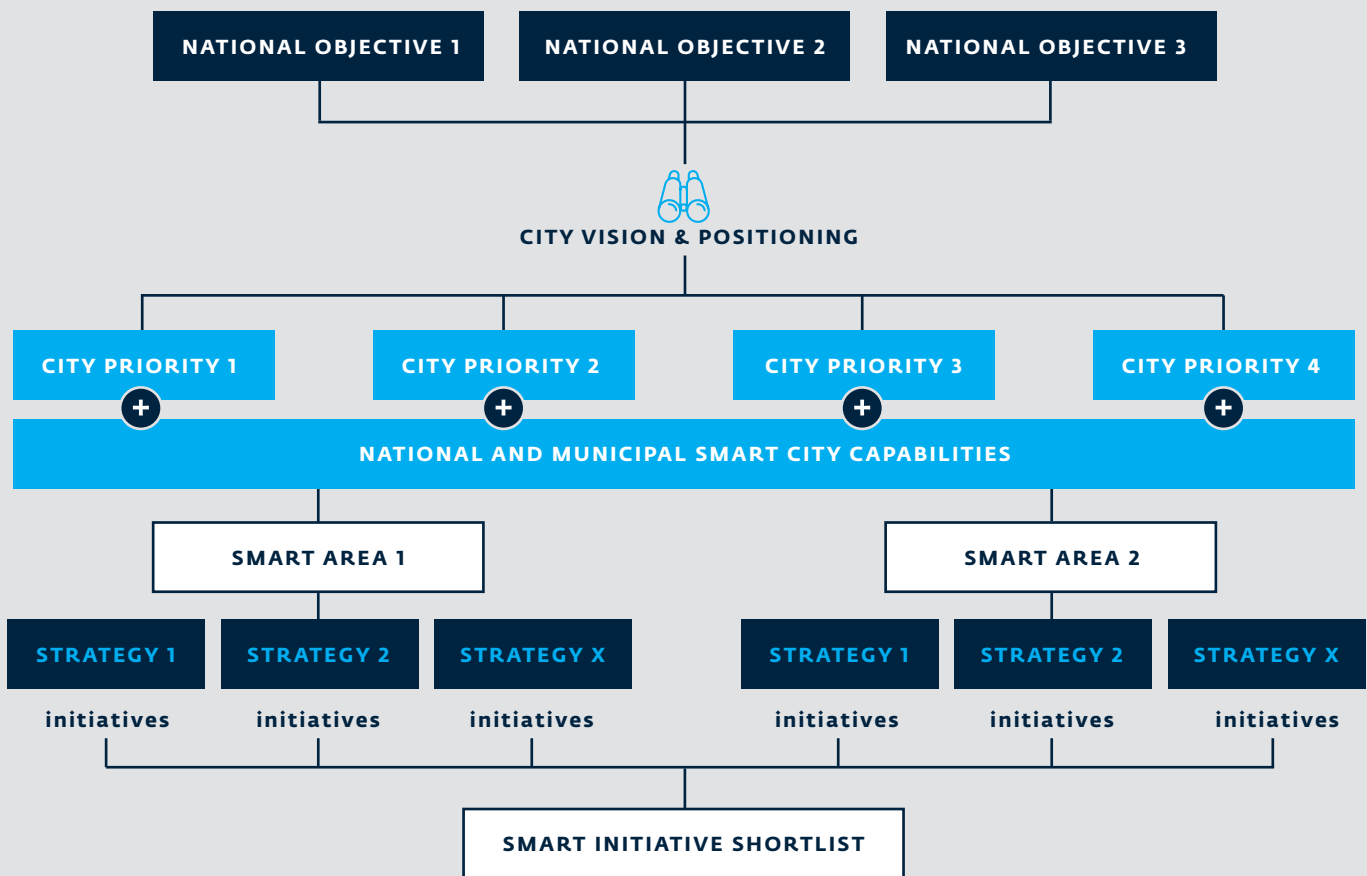

What does the Smart City Toolkit do for your city? The toolkit:

Formulates a compelling **Smart City vision** that serves some of your critical objectives and challenges

Identifies and prioritizes the **smart initiatives** that best achieve this vision, including a data strategy, operations, and digital infrastructure needed

Makes the case for investment, guides you through design and procurement, and **supports identifying optimal financing solutions**
